Mission Statement

The National Society of Black Engineers' mission is:

"To increase the number of culturally responsible Black engineers who excel academically, succeed professionally, and positively impact the community"

Ice Breaker

Elevator Pitch Roulette

Everyone will pair up and has 30 seconds to give a fun mini "elevator pitch" about themselves. Instead of just professional skills,, they have to include one random/funny element (e.g., favorite snack, dream superpower, or a silly talent).

After a 3-4 rounds, share the funniest pitches that you heard from other people!
